KING'S PATENT WROUGHT IRON

TUBULAR ARCH BRIDGES

HAVE been in use throughout the
Northern States for the last FIVE YEARS,
and are superseding all other kinds of
Turnpikes, County Roads, & Railroads.

Turnpikes have been built and put up, and, with-
out a NATION EXCEPTION, have paid off every
cost, and stand every test required of a good
Bridge.

Being constructed wholly of
WROUGHT IRON,

upon a plan combining in the greatest degree
Economy, Durability, and Strength,

they cannot fail to recommend themselves to
any one who has had any experience with
the radical organs.

The Radical organs have, however, accused the
Right of Way of Kentucky, Missouri, and the
Pennsyl. Banks, is prepared to furnish the
same.

Reliable, judicious, and practical agents are
employed. Correspondence and information

OF GREAT DESCRIPTION.

All wanted to be the best artist.

Photo-graphs of the southern and western States, photo-

graphs of the north, and other parts, for which

we are to demand negro suffrage in the

States of the North? We cannot so stably

ourselves. We, the people of the

South, to do what we can, to be

the Republican party is a party

of progress. Its motto is "Forward."

To the only advantage that men de-

rive from having no credit is that they

never run in debt. We don't think the

radical party will get deeper in debt

politically than it is.

The official returns of the elect-

in Alabama show that the convention is

carried by the immense majority of 81,987

votes. Of course this result is due to the

inaction of the white.

Mr. Seward, who has just passed

a few days in New York, says that the

State hasn't always been a true

republic, but he is one in this case.

Mr. Brownlow was guilty of the

shameless act of publishing his inaugural

Address and Message in his own paper,

The Courier and Whig, two days before he

was inaugurated.

Lord Stanley says that Great Britain

has all along dealt with America in a

friendly temper in the discussion of the

Alabama claims. All has been paid

the money it.

We are glad to see this, and we trust that the foolish spunk of the

organs will hold out to the end.

We fully agree with the Republican and

that it would be an everlasting

slavery for the Radicals to demand negro

suffrage in the States of the South and not in those of the North, but we can tell

them that their party will no doubt per-

petuate a good many everlasting shames to

escape speedy political annihilation, and, furthermore, that no amount of such

shame can render escape possible.

Whether they demand or surrender negro

suffrage in the Northern States, they are

doomed to political damnation.

Photographic Instruments,
all sizes, American and German brands.

The popular verdict in the late

icals.

Mr. Brownlow, we presume, goes to the

United States Senate. Does he take his

malicious militia with him?

Even the wisest and soundest politi-

examined, the result cannot be supposed to be at-
tributable merely to Radical inactivity or

to the operation of any other cause.
